RE: VANDA CONSTRUCTIONS
SUBJECT: PROFESSIONALREFERENCE

To Whom it Concerns,

We have worked recently with Vinko and Adam of Vanda Constructions on a complex residential dwelling in Roseville Chase. The project involved the knockdown of an existing single storey cottage and rebuild of a modern new two storey mixed construction dwelling with a build value of approximately \$1.1million dollars.

We found Vinko, Adam and the team at Vanda to be professional operators being considerate of the expectations of the owners and the instructions of ourselves.

As designers we were extremely happy with the positive contributions Vanda made in regard to detailing of the building as it was being constructed. We were also very pleased with the end result. Vanda are clearly a company who are proud of what they do and show great attention to detail.

We have no hesitation in asking Vanda to tender on future projects through our office and look forward to the potential opportunity of working with them again.
