TO WHOM IT MAY CONCERN

Dear Sir/Madam

**RE VANDA CONSTRUCTIONS PTY LIMITED
VINKO ANDRIJIC – DIRECTOR**

Further to my recent conversation with Vinko Andrijic, I am pleased to prepare this reference for inclusion in his Home Warranty Insurance-Eligibility Application.

As a structural engineer I have had an association with Vinko Andrijic for more than 30 years, most recently through his company Vanda Constructions Pty Limited. Throughout that time, Vinko's and his companies' approach to building has always been professional, beginning at initial client contact, and proceeding through tendering, construction and good building and general administration practices.

Over the years, I have been structural engineer for a large number and variety of residential projects undertaken by Vinko Andrijic and his companies. Most notably these have included:

- 269 Victoria Avenue Chatswood: 6 2-Bedroom Units over Basement carparking
- 3 Gordon Street Chatswood: 12 Units over Basement carparking
- 11 Kitchener Road Artarmon: 8 Townhouses with Basement carparking
- 10 Eden Street Neutral Bay: 4 Townhouses with Basement carparking

I commend Vinko and his teams on their standard of workmanship and the quality of finish achieved on the projects with which I have been involved. I consider that Vinko Andrijic and his Company have the experience to undertake residential projects with a value up to \$3,000,000.00.

Yours faithfully
Wellstructured
